

PIONEERING SOIL SOLIDIFICATION TECHNOLOGY

TRANSFORMING SOIL INTO STRENGTH, BUILDING THE FUTURE ON SOLID GROUND

At PT Multi Traktor Perkasa, we are proud to partner with FENY New Material, a global leader in innovative soil solidification technology. Together, we bring cutting-edge solutions to Indonesia, empowering construction, mining, and infrastructure projects to build on solid ground

As the authorized selling partner of FENY New Material, PT Multi Traktor Perkasa is your gateway to advanced soil stabilization solutions. FENY's proprietary technology transforms weak, unstable soil into rock-like strength, providing a sustainable and cost-effective alternative to traditional methods. With our expertise and FENY's innovation, we deliver value to your projects.

By combining FENY New Material's cutting-edge technology with our deep industry knowledge and customer-centric approach, we empower businesses across Indonesia to tackle geotechnical challenges with confidence and build a stronger future. PT Multi Traktor Perkasa – Bringing FENY New Material's Innovation to Indonesia.

Built Strong, Trusted Service
